

Certificate

**UXQB® Certified Professional
for Usability and User Experience**

**Foundation Level
(CPUX-F)**

Kim Schwab

born on 01.01.1990

has successfully passed the exam for the certificate
Certified Professional for Usability and User Experience

“Foundation Level”
(CPUX-F)

on 31 July 2022. The exam was conducted by <Certification body>.

The certificate confirms that the certificate holder has an understanding of the general terms and concepts in the field of Usability and User Experience, in particular in the following areas of competence:

- The human-centred design process;
- Definitions, concepts and guidelines;
- Understanding and specifying the context of use;
- Specifying the user requirements;
- Producing design solutions;
- Usability tests;
- Usability inspections and user surveys.

The certification examination is based on the CPUX-F curriculum developed by the International Usability and User Experience Qualification Board (UXQB). Details, including the CPUX-F curriculum, are publicly available at www.uxqb.org.
